

## Resolved Issues

1. Resolved an issue where a “(94) Invalid Use of Null” prompt would be displayed when posting times for an employee. (Issue #5775)
2. Corrected an issue causing slow operation of the scheduling board. (Issue #5731)
3. Fixed an issue where lunch and break times pre version 99 could not be converted to the new time format. (Issue #5777)
4. Resolved an issue where the “Edit time Entries” windows would not default the date to current date when only time was entered. (Issue #5788)
