

## Enhancements

1. Added the ability to use QuickBooks' group items when using the 'Add Equipment' feature. (Enhancement #5320)

## Resolved Issues

1. Added the ability to create a purchase order and estimates in the demo version of iFleet. (Issue #5212)
2. Resolved an issue where working on jobs without tax items would cause an app crash. (Issue #5197)
3. Corrected an issue where forms added to iFleet would be given the same name as the default work order document instead of the form's original name. (Issue #5192)
4. Fixed an issue where amounts were being truncated if no change was needed. (Issue #5191)
