

Recently Used Items

iFleet can now recognize which items you use most often and move them to the top of the list! You'll need to enable this feature under iFleet Settings > Recent Job Item Count, where you can decide how many of your most-used items you want to see at the top of the list. iFleet will then track how many times you use each item, and show you a favorites list at the top of the Job Item list when adding an item to a job. (Enhancement 10165)

Resolved Issues

1. Resolved an issue which caused history records to open only when clicking on the text of the history record. (Issue #10129)
2. Corrected an issue where history records were not being sorted correctly by date completed. (Issue #10175)
3. Fixed an issue that could cause iFleet to crash when searching history records. (Issue #10176)
4. Resolved an issue that could cause iFleet to crash when editing item quantity or price fields. (Issue #10180)
