

## Enhancements

1. USPS will be retiring their address certification API, so previous updates will not be able to certify their address after January 25, 2026. Update 127 will now use Google Maps API for address certification. (Enhancement #10540)
2. Display date and time on text messaging screen between each dates displayed. (Enhancement #10566)

## Resolved Issues

1. Require at least one drop-down option added when user definable field is set as required. (Issue #10507)
2. Fixed issue with printing custom service agreement when filtering by customer name or contract name. (Issue #10498)
3. Fixed buttons display issues on the scheduler and dashboard. (Issue #10441)
